ADVISORY FIRST • EXPERT LED • OUTCOME DRIVEN

Workday Enablement Hub

Your Workday, Continuously Elevated

Great consulting starts with a point of view. Our experts look at where your business is going, not just what's broken today, and turn that into a clear path forward. From hands on Workday support to Health Checks and Phase X deployments, you work with seasoned practitioners who advise, deliver, and own the outcome.

What we hear across the ecosystem

The status quo isn't working.

> *Post go live support feels too transactional. We need a real partner.*

> *We need real experts, not a rotating cast of resources.*

> *Our system works, but it isn't delivering the ROI we expected.*

WHAT WE DELIVER

Core Service Areas

1. **Health Checks, Roadmaps and Optimization**
   Diagnostic review of configuration, adoption and utilization that outputs a prioritized optimization roadmap.
2. **Phase X Module Deployments**
   Full delivery of new modules: Benefits, Payroll, Adaptive, Prism, Extend and more.
3. **Post Go Live Stabilization and AMS**
   Hypercare, critical issue triage and rapid remediation after go live.
4. **Integration Support**
   Build, monitoring, error remediation and optimization across the integration toolset.
5. **AI Readiness and Activation**
   AI ready data audits, Workday AI feature enablement and adoption planning.

WHY GQR

Bringing Something Different

- **Advisory first, never reactive**
  Health Checks and optimization planning before problems become crises.
- **Senior specialists, every time**
  No pyramids, no padding. The expert you meet does the work.
- **White glove at boutique cost**
  Enterprise quality without the enterprise price tag.
- **Continuity and accountability**
  Named teams and clear roles. The same experts own your workstreams.
- **One team with you**
  One cohesive unit with your team, never siloed.
- **Built for client enablement**
  We build self sufficiency, not dependency.

HOW WE GUIDE CUSTOMERS

The Workday Maturity Curve

01 STABILIZE
0 to 6 months post go live

- Critical issue triage and resolution
- Configuration fixes and quick wins
- Security and business process review
- Hypercare and ticket remediation

A stable system your team can rely on.

02 ADOPT
6 to 12 months post go live

- Feature adoption and self service
- Foundational workshops and training
- Governance model design
- Reporting, analytics and dashboards

A team that owns Workday and uses it fully.

03 OPTIMIZE
12+ months post go live

- Phase X module deployments
- AI readiness and feature activation
- Workday Extend development
- Cross functional optimization roadmaps

A platform delivering measurable ROI.
